A Busy Day on the Farm (A2)

It is six o'clock in the morning, and Farmer Ben starts his day early. He has many animals to look after. First, he opens the barn and feeds the cows with fresh hay. Then he collects eggs from the chickens. Every morning, the hens lay fresh eggs for the local market.

Next, Farmer Ben checks the horses. They are strong and healthy because they exercise every day. The sheep are eating grass in the field while the goats are climbing on big rocks near the fence.

The ducks enjoy swimming in the pond, and the rabbits are busy eating carrots and lettuce in their hutches.

In the afternoon, Farmer Ben cleans the stables, fills the animals' water bowls, and repairs a broken fence. Before going home, he walks around the farm one last time to make sure every animal is safe.

Farmer Ben enjoys his job because he loves animals and likes working outdoors.
