Reading worksheet

A2 – Worksheet 1: The Tiger

THE TIGER – A POWERFUL ANIMAL

The tiger is one of the most beautiful wild animals in the world. Tigers have orange fur with black stripes. Every tiger has a unique pattern of stripes.

Tigers usually live in forests and grasslands in Asia. They are excellent hunters and can move very quietly when they are looking for food. They eat other animals, such as deer and wild pigs.

Tigers usually live alone. They are good swimmers and can cross rivers when they need to. Unfortunately, wild tigers are endangered because they are losing their natural habitats.

Exercise 1 – Choose the correct answer.

What colour is a tiger's fur?

- a) Brown
- b) Orange
- c) Grey

Where do tigers mainly live?

- a) Asia
- b) Australia
- c) Antarctica

What do tigers eat?

- a) Grass
- b) Fruit
- c) Other animals

Do tigers usually live in groups?

- a) Yes
- b) No
- c) Only in winter

Why are tigers endangered?

- a) They cannot swim.
- b) They are losing their habitats.
- c) They cannot find water.
