Reading worksheet

What Do Farm Animals Give Us (A1)?

Farm animals help people in many ways. Cows give us fresh milk. We can drink milk or make cheese and butter. Chickens lay eggs every day. Eggs are healthy and delicious.

Sheep give us wool. People use wool to make warm clothes like sweaters, hats, and scarves. Bees make honey from flowers. Honey is sweet and tasty.

Horses and donkeys help farmers carry heavy things or pull carts. Goats also give us milk. Every farm animal is special and helps people in different ways.

Exercise 1 – Answer the Questions

1. What do cows give us?
2. What do chickens lay?
3. What do people make from wool?
4. Who makes honey?
